# Il debito pubblico dall'Unità d'Italia ad oggi

7-9 minuti

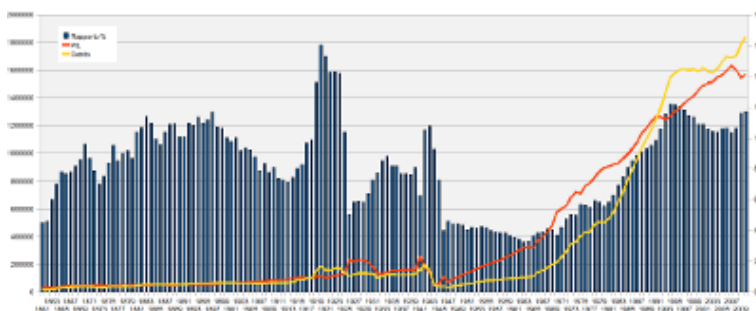

In questo periodo di crisi generalizzata spesso si parla di [debito pubblico](#) , di [PIL](#) e del [rapporto Debito / PIL](#) quale indice di ricchezza/difficoltà di una nazione .

Attualmente , per l'Italia siamo intorno al 120 %

Sapevate che nel 1920 il rapporto Debito pubblico / PIL era 160,50 , quindi ben superiore a quello attuale (117,21) ...

Forse qualche speranza di recupero c'è :-)
